

Transcript of “Would you recommend the Motability Car Scheme?”

First customer “I’d recommend the scheme and I’d also recommend the dealership that I went to because they were really good, everything went really smooth. There were no problems whatsoever – from going in and talking to them all the way through to actually getting my car.”

Second customer “It give you a new lease of life. More so if you can drive – but even if you can’t drive, if you’ve got someone in your family who can drive, and you get them on the insurance, no problems. It’s wonderful.”

Third customer “It’s the best thing since sliced bread to me. It’s absolutely fantastic. I would also recommend my dealership, obviously, because, I mean – you don’t go back to the same place for four cars without [there being] something that’s good about it. I would highly recommend it [the Motability Car Scheme] to anybody.”
