

Why Join Motability?

First customer "It gives me the choice and the easiness (if you want to call it easiness) of getting about. [It's] better than going on public transport, being thrown about on a bus: I can sit in my luxury car and be driven away in style. "

Second customer "My car was getting older. It was starting to cost me money. I needed a new car, because I needed something that was more adaptable for my condition, for the wheelchairs, etc. etc. and that was the main reason. Plus, it was something I could pay monthly out of my allowances and it was, as far as I was concerned, cheaper than running my own car if I'm really, really honest. Trouble free motoring and no worries to me at all."
